Rhyming Words

A skill that will help your child as they begin the process of learning to read is being able to rhyme. KDL has some rhyming cards you can print under the "printable activities" link. You can also play a game with your child as you travel, seeing who can find the most rhyming words (tree, bee, flea, knee, see, key, etc.)

What this is teaching:

Being able to rhyme words will help your child recognize the sounds in a word, which will help them know that a word that ends the same in print probably has the same ending sound when spoken.
