## Compare and Contrast

**Materials Needed:** Two large circles (using this print-out, two hula-hoops, or strings in two circles).

**Directions:** Lay the two circles so they overlap. Read the two books. When you have completed reading, lay the books next to the circles so they can connect each book with each circle. Prompt your reader to talk about the books by stepping into each of the three parts when discussing the book. Talk about if the characters, problems, solutions, settings, or any other part were similar or different.
