

Nook Tablets

Getting started with Overdrive on Nook Tablets (Android OS)

On newer NOOK tablets (including color-screen devices like the [NOOK Tablet 7"](#), [NOOK Tablet 10.1"](#), and [Samsung Galaxy Tab NOOKs](#)), you can install the new Libby app or the original OverDrive app. On older NOOK tablets, like the [NOOK HD and HD+](#), you can install the original OverDrive app.

Getting started with the Libby app (see above for compatible devices)

1. Install the Libby app from the Google Play app store or at libbyapp.com.
2. In Libby, follow the prompts to find your library and sign in with your library card.
3. Browse your library's collection and borrow a title.
4. Borrowed titles appear under Shelf > Loans and download to the app automatically when you're connected to Wi-Fi, so you can read them when you're offline.
5. From your Loans, you can:
 - Tap **Read With Libby** to start reading in Libby.
 - Tap **Open Audiobook** to start listening to that title.
 - Tap **Manage Loan** to see options like Renew and Return.
