NOOK Tablet and the Library

On newer NOOK tablets (including color-screen devices like the NOOK Tablet 7", NOOK Tablet 10.1", Samsung Galaxy Tab NOOKs, and the NOOK 10" HD Tablet Designed with Lenovo, you can install the new Libby app directly onto the device!

Getting Started with Libby

Install the Libby app from the Google Play app store or libbyapp.com.

In Libby, follow the prompts to find your library and sign in with your library card.

Welcome! Thousands of public libraries offer ebooks and audiobooks (for free!) in Libby. Let me ask you a few questions, to guide you to your library.

First question: do you have **a library card**?

Yes   Not Yet

Browse your library's collection or **Search** by tapping 🔍 and borrow a title!

Navigating Libby

Borrowed titles appear under **Shelf** > Loans and download to the app automatically when you're connected to Wi-Fi, so you can read them when you're offline.

You'll also find your magazine subscriptions and kept magazine issues on the Magazine Rack on your **Shelf**.

 *To save space on your device, magazines don't automatically download, but you can manually download individual issues.

On your **Shelf,** you can:

- Tap L**oans** (at the top of the screen) to only see your book and audiobook loans.
  - Tap **Read With**... to choose where you'd like to read a book (Kindle or Libby), then finish sending to Kindle or start reading in Libby.
  - Tap **Open In Libby** or **Open Audiobook** to start reading or listening in the app.
  - Tap **Manage Loan** to see options like **Renew Loan** and Return **Early**.

- Scroll down to the Magazine Rack to see your magazines:
  - Tap a magazine's cover to start reading.
  - Tap to ⋯ see options, like **Download** (mobile app only) and **Subscribe**.
